Description

Description: When a user attempts to register with an email address that is already in use, no error message is displayed. The registration form submission appears successful, but the account creation fails.

Steps to reproduce:

The same as for the: <https://itfclasses.atlassian.net/browse/ST3EM-26>

Expected results : An error message is displayed indicating the username or email address is already in use.

Actual results: No error message is displayed indicating the email address is already in use

Description

Description: Users attempting to register on the platform are unable to locate the social media sign-up button on the registration form. This prevents them from using their social media accounts to create an account.

Steps to reproduce:

The same as for the : <https://itfclasses.atlassian.net/browse/ST3EM-20>

Expected results : A social media sign-up button is clearly visible on the registration form.

Actual results: No social media sign-up button is present on the registration form.

As a new user i want to register a new account to have acces on app full features (ST3EM-1)

Description

Users are able to create accounts with invalid e-mails , when they enter an invalid email address (e.g., missing "@", invalid domain) and fill in any additional information required.

Steps to reproduce:

The same as for the <https://itfclasses.atlassian.net/browse/ST3EM-14>

Expected Result:

The system displays an error message indicating the email address is invalid.
The user cannot submit the form until a valid email address is entered.

Actual results: Users can easily create an account with an invalid e-mail
